Mr. Michael V. Polito
Hazardous Material Consultant
U.S. E.P.A.
Region #2
Edison, New Jersey 08817

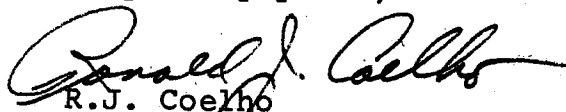

Dear Mr. Polito,

In reply to your request of May 17, 1979, please accept this letter with the information you need to complete your evaluation of the conformance to 40 CFR 112.

1. November - December 1977, Oil Storage capability started.
2. May 1978, Duane Marine Corporation was licensed by S.W.A. Division N.J. D.E.P. as a special waste facility. Licensed to accept special waste with one exception P.C.B.'s.
3. Less than 8,000 drums.
4. In July 1978 concrete dike was repaired. Contractors used silicon caulking as a sealant and a mixture of portland cement 2 to 1 was used subsequent to the leak proofing. Work was performed by outside concrete specialist.

I trust the above information will be helpful to you,
I remain

Very truly yours,

R.J. Coelho
Duane Marine Corporation
